FOUNDER & ADMIN PROFILE FORM

This form captures the complete profile of a DBMartNG founder / superior admin. Information provided here will be used for: (a) the site's Credits / Founders / About page, (b) internal admin-allowlist records, and (c) any build-agent reference material placed in the project directory alongside the build prompt, logo assets, and this completed form.

*Fields marked with * are required. Fields left blank simply won't appear in public-facing credits.*

Short Professional Bio (2–4 sentences, for the public Credits / About page):

Brume Godgift (Kediehor Oghenebrume) is a software engineer and Co-founder & Co-CEO of DBMartNG, based in Asaba, Delta State, Nigeria. He is passionate about building digital platforms that make it easier for Nigerian businesses to reach the customers who need them. At DBMartNG, he works across product, technology, and business strategy to help bring the platform to life.

5 ROLE WITHIN DBMARTNG

- ☐ Founder — Superior Admin (one of the two allowlisted admin accounts)
☒ Co-Founder — Superior Admin (the second allowlisted admin account)
☐ Sub-Admin (specify granted permissions below)
☐ Other (specify below)

If Sub-Admin — which permissions should be granted? (verify_listings / verify_vendors / manage_verified_badge / handle_reports / approve_ads / view_analytics):

Primary Responsibilities at DBMartNG:

6 CREDITS & PUBLIC ATTRIBUTION

This controls exactly what appears about you on the site's public Credits / Founders page.

Name to Display in Credits *	Title to Display in Credits *
Brume Godgift	Co-founder & Co-CEO

☒ Include my headshot/photo in public credits (attach separately as a file)

☒ Include my email in public credits

☒ Include my phone number in public credits

☒ Include my social media handles in public credits (select which below)

Which social handles should be public? (list platforms):

☐ I prefer to remain uncredited / listed anonymously as "DBMartNG Team"

7 SECURITY & ACCOUNT PREFERENCES

☐ I want 2FA/OTP required on every admin login (recommended)

☒ I'm fine with 2FA/OTP being optional (platform-wide toggle — see Section 3.1 of build prompt)

Preferred OTP delivery method for admin login: (Email / SMS / Either)

Recovery contact (a trusted second phone/email in case of lockout — not used for login, only recovery):

8 PAYOUT REFERENCE (OPTIONAL — HIGH-LEVEL ONLY, NO SENSITIVE NUMBERS HERE)

Do NOT write full bank account numbers, card numbers, BVN, or passwords on this form. This section is only to confirm which entity/person receives Paystack payouts — actual banking details should be entered directly and securely into the Paystack dashboard, never on this document.

Payout Recipient Name (individual or registered business)	Business Registration Name (if applicable, e.g. CAC name)

9 DECLARATION & SIGN-OFF

I confirm the information provided in this form is accurate to the best of my knowledge, and I understand it will be used to configure DBMartNG's admin access, credits, and related internal records.

Signature	Date

Once completed, save/export this form as a PDF and place it in the same project directory as the build prompt (.md), logo assets, and any other reference files, so the coding agent can pull founder/admin details directly from it.
